

Rudolfinum Recording Studio

Equipment list • Microphones & monitoring

Microphones

Brand	Notes
Neumann	Condenser microphones
B & K (Brüel & Kjær)	Measurement-grade condensers
DPA	Omni / cardioid condensers
Schoeps	Modular condenser system
AKG	Condenser microphones
and others	Additional models available

Listening Monitors

Monitors	Configuration
Neumann KH 420, KH 310, KH 810	5.1 monitoring system
B&W 800 Diamond + Chord SPA1232 DA	Reference main monitors
PSI Audio A17-MS	Near-field reference monitors

The studio’s microphone locker spans premium condenser brands — Neumann, Brüel & Kjær, DPA, Schoeps and AKG — matched to a high-resolution Neumann KH 5.1 system with B&W 800 Diamond and PSI Audio reference monitoring.

Rudolfinum Recording Studio

Equipment list • Console, effects & recording chain

Consoles

Console	Details
Studer Vista X	Digital mixing console with D23 digital I/O

Effects

Processor	Details
Lexicon 960L	Multi-channel reverb / effects processor
Bricasti M7	Stereo reverb processor

Recording & Editing

System	Role
Pro Tools + Avid MTRX I	Primary DAW and interface
Magix Sequoia + RME HDSPe	Editing / mastering system

Signal flows through a Studer Vista X digital console into Pro Tools / Avid MTRX and a Magix Sequoia editing system, with Lexicon 960L and Bricasti M7 providing the studio's outboard reverb and effects.
